About Jadon

Jadon is half American (on his father's side) and half Japanese (on his mother's side). He was born in California, U.S.A. and moved to Japan with his family at 6 months old. He lived in Tokyo until the age of 4, and then moved to Osaka.

Jadon has always been athlete, competing in track & field (400m) since junior high school, and continuing throughout high school where he placed 3rd in the national inter-high school competition. He was admitted to university in Tokyo on a track and field scholarship.

He is currently finishing his last year of college, working and modelling. In the future, he would like to travel around the world to broaden his horizons and continue to challenge himself in many different ways.
